--------------	--

Board Machine 3

- Capacity –30,000 tonnes per annum
- Suited to shorter runs to supply niche markets – match boxes; bottle dividers; book covers; specialised paper cores and tubes
- Fibre sources – predominantly recycled paper
- Rebuilt 1980

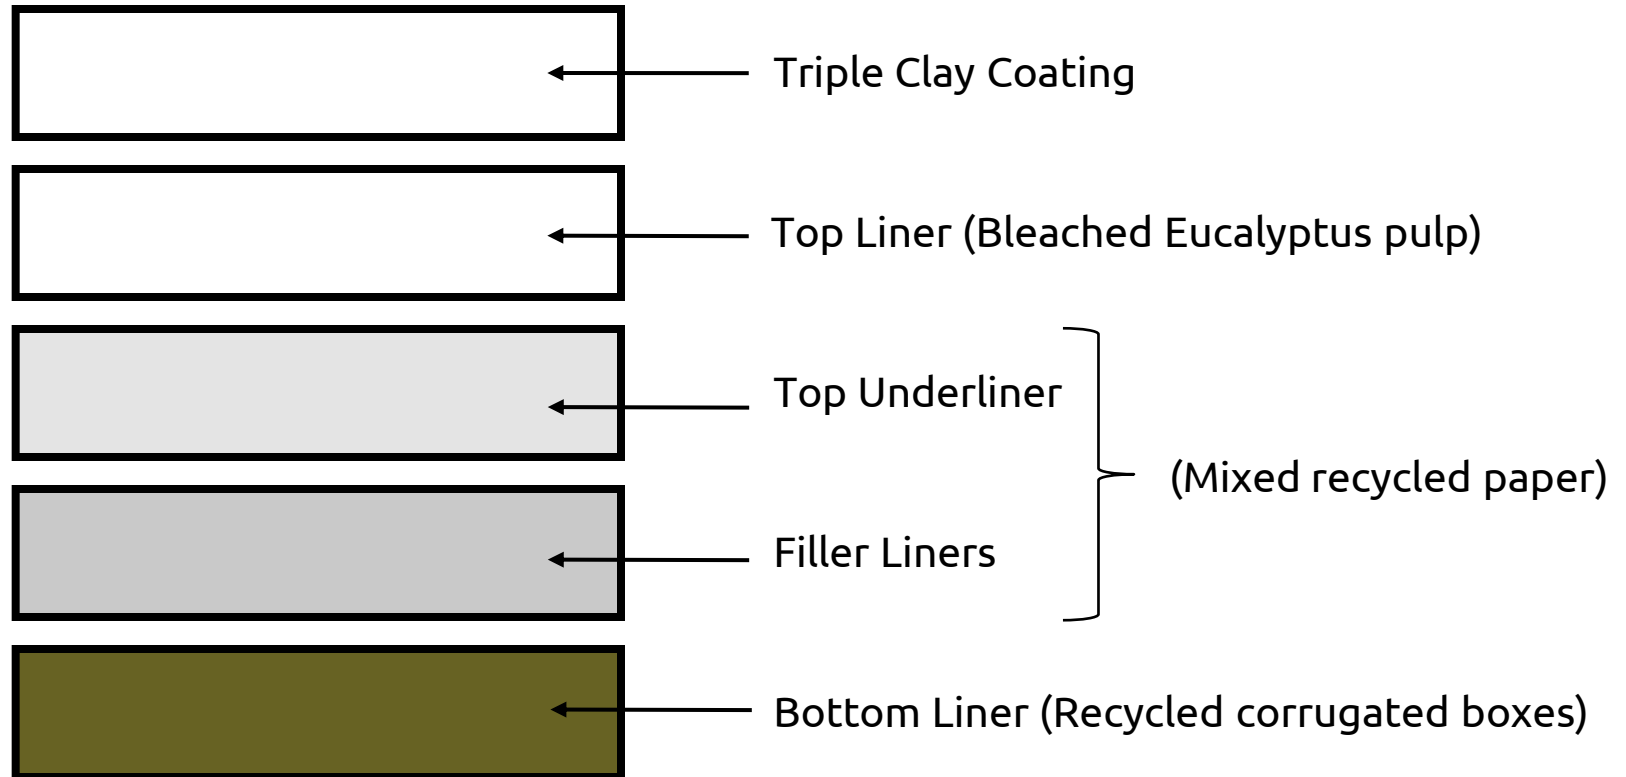

Board Machine 6

- Capacity – 107,000 tonnes per annum
- Coated white lined cartonboard; niche industrial products e.g. ceiling board
- Fibre sources – bleached Eucalyptus pulp, recycled paper
- Coating Plant rebuilt in 2007 to enable triple coating on both sides of the sheet
- “Colour Kitchen” also rebuilt to allow for flexibility and barrier coating applications
- Complete rebuild 1989

Composition: Coated white lined cartonboard
