

SUSTAINABILITY POLICY DEVELOPMENT

While Mpact has developed a strong corporate culture of sustainable business practice, it is not complacent regarding its current performance and responsibility. The Group is dedicated to continuous improvement in sustainability and takes cognisance of global developments in this arena encapsulated in this quote from Allen White: co-founder and former CEO of GRI, founder and co-chair of Global Initiative for Sustainability Ratings:

“While corporate accountability and performance improvement initially drove the reporting movement, years of practice have revealed a purpose even deeper and more transformational. That purpose is the redefinition of corporate value and value creation. Slowly but steadily, a new definition of value is emerging, one rooted in multiple capitals that encompass human, social, natural alongside financial.”

Much of the Group’s efforts in 2015 will be on further entrenching existing sustainability related policies. From this Mpact expects new initiatives to be born and is excited to see what the future holds. The Group looks forward to realising its vision of being a leading business with the highest ethical standards, delivering exceptional value for its customers, employees, communities and shareholders.

DOCUMENTS AND RESOURCES AUDITED
