

# The CEO's Safety, Health and Environmental Philosophy

**All injuries, occupational illnesses, safety and environmental incidents are preventable and our target for them is ZERO.**

**The fundamental principles that give effect to my philosophy are:**

- You are responsible for your own safety.
- Adhering to the "Fire and Safety Rules to Live By" is the minimum standard throughout Mpact.
- There is no differentiation in terms of the treatment and expectations of our own employees, contractors and service providers.
